PROFESSIONAL SUMMARY

Computer Science Engineering (AI-ML) graduate with hands-on experience in **Python, SQL, Excel, Power BI, Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn**. Skilled in **data cleaning, EDA, statistical analysis, data visualization, KPI analysis, dashboard development, feature engineering, and predictive modeling**. Experienced in analyzing business datasets and converting data into actionable insights. Seeking entry-level opportunities in **Data Analytics, Business Intelligence, or Data Science**.

TECHNICAL SKILLS

- **Programming & Querying:** Python, SQL
- **Data Analytics:** Data Cleaning, Data Preprocessing, Data Wrangling, Exploratory Data Analysis (EDA), Data Validation, Statistical Analysis, Descriptive Statistics, KPI Analysis, Business Analysis, Data Interpretation
- **Data Visualization & BI:** Power BI, Microsoft Excel, Matplotlib, Seaborn, Data Visualization, Dashboard Development, Reporting, Pivot Tables, VLOOKUP, XLOOKUP, Excel Formulas, Charts
- **Python Data Libraries:** Pandas, NumPy, SciPy, Scikit-learn
- **Machine Learning:** Machine Learning, Supervised Learning, Classification, Regression, Feature Engineering, Predictive Modeling, Model Training
- **Databases & Tools:** SQLite3, Jupyter Notebook, Google Colab, VS Code, Git, GitHub
- **Software Practices:** Manual Testing, Functional Testing, Debugging, SDLC, Technical Documentation, Version Control

PROJECTS

E-Commerce Sales & Customer Intelligence

Python | SQL | Excel | Power BI

- Cleaned and transformed transactional data using **Python, Pandas, NumPy, and Excel**; performed EDA to analyze revenue, profit, products, customers, and regional performance.
- Used **SQL** for joins, aggregations, filtering, grouping, and KPI analysis; applied **RFM analysis** to segment customers by Recency, Frequency, and Monetary value.
- Built a **Power BI dashboard** tracking sales, profit, orders, average order value, customer segments, and product performance.

Customer Churn Prediction & Retention Analytics

Python | SQL | Scikit-learn | Power BI

- Analyzed customer subscription data using **Python, Pandas, NumPy, and SQL** to identify churn patterns across tenure, plans, charges, services, and customer segments.
- Performed **EDA, statistical analysis, and feature engineering**; trained **3 classification models**: Logistic Regression, Decision Tree, and Random Forest.
- Created a **Power BI dashboard** to visualize churn drivers, high-risk customer segments, churn rate, and revenue-at-risk insights.

Bank Loan Default & Risk Analytics

Python | SQL | Pandas | Scikit-learn | Power BI

- Cleaned and analyzed loan/customer data to evaluate loan applications, approval trends, default patterns, income, credit profiles, loan amounts, and portfolio risk.
- Performed **EDA, statistical analysis, data visualization, and feature engineering** using Python, Pandas, NumPy, Matplotlib, and Seaborn to identify default-risk factors.
- Developed classification models for loan default prediction and created a **Power BI executive dashboard** for loan KPIs, default rates, risk segments, and portfolio insights.

INTERNSHIP EXPERIENCE

Python with AI Intern – SkillDzire

2025

Python, Pandas, NumPy, Scikit-learn

- Developed machine learning models using **Python, Pandas, NumPy, and Scikit-learn**, including data preprocessing and model training workflows.
- Built data processing workflows and contributed to AI/ML tasks, strengthening analytical problem-solving and debugging skills.

Frontend Web Development Intern – Amaravathi Solutions

2023

HTML5, CSS3, JavaScript

- Developed responsive and interactive web interfaces using **HTML5, CSS3, and JavaScript**.
- Performed functional testing and debugging to validate application behavior and improve reliability.

EDUCATION

Rajamahendri Institute of Engineering Technology

2022–2026

B.Tech – Computer Science Engineering (AI-ML)

70%

Narayana Junior College

2020–2022

Intermediate – Science

58%

Sri Chaitanya Techno School

2020

SSC

99%

CERTIFICATIONS

GenAI Powered Data Analytics Job Simulation – Tata Forage

Data Analysis with Python – Infosys Springboard

Statistics for Data Science – Infosys Springboard
